NET PROFIT CALCULATION

The Formula: Net Profit = Total Deposits – Total Withdrawals – Bonuses. (Note: Promotional bonuses are always deducted from the gross total).

Payout Timing: While standard Base Pay and Target Bonuses are paid on the 5th and 20th (half-month cycles), Net Profit Share is strictly calculated and paid out once at the end of the month.

Minimum Threshold: To qualify for the 5% Net Profit Share (Confirmed Staff), your users must generate a minimum of ₦100,000 in net profit for the month.
